

# BIBLE CODE BREAKER

François is the greatest explorer of his time. He has travelled all over the world and discovered many artefacts which he has always donated to the museums. François the explorer is in a pickle, his has found the oldest manuscript of the bible. Unfortunately, the scroll is locked in an ancient but very sophisticated box. The only way to open the box without destroying the scroll is to read a specific bible verse. François can see some inscriptions on the box which he think it will help him to find out the bible verse. The inscriptions are coded, and he needs your help to solve them. He took a picture of the codes for you. (see below)

You will need to solve 3 Codes below

Code number 1 will give you the book of the bible

Code number 2 will give you the chapter of the book

Code number 3 will give you the verse of the chapter.

Once you think you managed to break all 3 codes please write down in the answer section the numbers and the full verse so François can read the verse and email it back to his email address:

[newbold.pathfinder@gmail.com](mailto:newbold.pathfinder@gmail.com).

François will let you know if he was able to open the box with your help.

Answer:

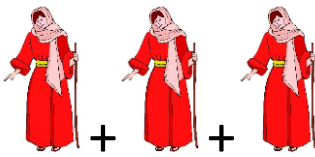

---

---

---

## Code 1

$$+ + + = 18$$

$$+ + + = 15$$

$$+ + + = 9$$

$$+ \times = ?$$

Code 2

$$\begin{array}{c} \text{🍎} \text{🍎} \text{🍎} \\ \text{🍎} \text{🍎} \text{🍎} \end{array} + \begin{array}{c} \text{🍎} \text{🍎} \text{🍎} \\ \text{🍎} \text{🍎} \text{🍎} \end{array} + \begin{array}{c} \text{🍎} \text{🍎} \text{🍎} \\ \text{🍎} \text{🍎} \text{🍎} \end{array} = 432$$

$$\text{🍒} \times \text{🍒} \times \text{🍒} = 64$$

$$\text{🍇} + \text{🍇} + \text{🍇} = 33$$

$$\begin{array}{c} \text{🍎} \\ \text{🍎} \\ \text{🍎} \end{array} / \text{🍒} + \text{🍇} = ?$$

Code 3

$$\text{👦} + \text{👦} + \text{👦} = 45$$

$$\text{🪵} + \text{🪵} + \text{🪵} = 15$$

$$\text{👴} + \text{👴} + \text{👴} = 270$$

$$\text{👦} \times \text{🪵} - \text{👴} = ?$$
